# SAY HELLO TO SHELLAC™

Shellac paints on like polish - base coat, color, top coat - and is cured under UV light so there is zero dry time. The colors are hypo-allergenic, and "3-Free" - no formaldehyde, toluene or DBP. Shellac will launch in a range of 12 shades, from pretty French pinks and whites, to siren reds and rich darks. The formula is thin and flexible like polish, so it not only looks natural, but it also provides strong natural nail protection with a resilient mirror finish that resists dullness and chipping, even during the most rigorous activities.

### SHELLAC BASE COAT

7.3ml ssp. \$34.95

A UV-cured base coat featuring UV<sub>3</sub> technology designed specifically for use with the Shellac UV Color Coat System. Provides a superior adhesion layer, anchoring Shellac Color Coat to the nail.

### SHELLAC COLOR COAT

7.3ml ssp. \$34.95

Shellac UV Color Coat is available in 12 of our all-time favourite shades: Cream Puff, Fedora, Hot Chilis, Iced Cappuccino, Negligee, Rose Bud, Red Baroness, Romantique, Strawberry Smoothie, Tutti Fruitti, Tropix and Wildfire.

### SHELLAC TOP COAT

7.3ml ssp. \$34.95

A UV-cured top coat featuring UV<sub>3</sub> technology designed specifically for use with the Shellac UV Color Coat System. Provides a hard, scratch-resistant, mirror finish to nails to seal and protect.

### SHELLAC REMOVER WRAPS

10 pack ssp. \$3.95  
100 pack ssp. \$34.95

As amazing as Shellac is on, removal is just as satisfying! No soaking, drilling or filing is necessary. Shellac Remover Wraps are designed to provide gentle, efficient removal of the Shellac UV Color Coat. The plastic-backed self-adhering cotton wraps limit finger and skin exposure to acetone by keeping it pinpointed to just the nail. Retaining body heat speeds the process and ensures thorough product removal in only ten minutes.
